in 1902 when it ridley mclean first wrote this sailor s bible he described it as a manual for every  
 person in the naval service one hundred years later it continues to serve as a primer for newly  
 enlisted sailors and as a basic reference for all naval personnel from seaman to admiral new  
 technology is artfully blended with ancient heritage facts and figures are augmented by helpful  
 advice and the mysterious language of the sea is preserved and deciphered in a volume that has  
 served the united states navy for an entire century updated throughout the book provides the  
 latest navy ratings uniforms ships aircraft and weapons as well as current navy policies on hazing  
 fraternization education and physical fitness and a completely new chapter explaining the navy s  
 mission in terms of its rich heritage

this book provides guidelines tools and real world examples to help assess and reform the  
 enabling environment for media development that serves public interest goals it builds on a  
 growing awareness of the role of media and voice in the promotion of transparent and accountable  
 governance in the empowerment of people to better exercise their rights and hold leaders to  
 account and in support of equitable development including improved livelihoods health and access  
 to education the book provides development practitioners with an overview of the key policy and  
 regulatory issues involved in supporting freedom of information and expression and enabling  
 independent public service media country examples illustrate how these norms have been  
 institutionalized in various contexts

milk producers can increase their income and utilize their skills and resources better if they are  
 working in groups this book aims to promote the organization of small scale milk collection and  
 processing as a sustainable income generating activity for household food security it also tries to  
 be a means to improving the safety quantity and quality of milk and milk products available for  
 consumers in developing countries

this brochure is intended for all audiences concerned with decision and policy making in regard to

the environment and sustainable development there are many different types of environmental assessment methods available to support decision making at global regional national and local levels and this guide aims serve as a useful quick reference source of information

biofuels global emergence in the last two decades is met with increased concerns over climate change and sustainable development this report addresses the core issue of biofuel sustainability of biofuels and related feedstocks drawing from a wide range of sustainability related studies reports policy initiatives the report critically examines the economic environmental and social sustainability dimensions of biofuels and review the major certification initiatives schemes and regulations in doing so the report relies on extensive review of a number of country case studies covering a broad range of current biofuel feedstocks systems the report analysis clearly distinguish feedstock efficiency in terms of biofuel yields per unit of land from sustainability especially under limiting resource irrigated water or sensitive areas carbon stocks also long run economic viability depend on the future policy support technical innovations in biofuel systems economics of biofuel supply and demand and trade offs between food and energy uses as well as feedstock productivity gains biofuels can present both advantages and risks for environmental sustainability the latter being often difficult to measure or monitor and may conflict with economic sustainability unless great strides in productivity gains are achieved social sustainability is the weakest link in current biofuel certification schemes owing to intrinsic local factors and as efforts target more few negative social impacts much less focus is placed on inclusive processes that strengthen marginal stockholders participation and benefits biofuel certification schemes need to be more smallholder inclusive perhaps through policy initiatives finally poor developing countries especially with abundant land and biomass production potential need to prioritise food security and poverty reduction in many cases biofuel models that encourage small scale integrated bioenergy systems may offer higher rural development impacts fdi induced larger scale biofuel projects on the other hand may be suitable in those situations where countries have sufficient industrial capacity besides land and biomass potential and when these biofuel projects can be fully integrated into domestic energy strategies that do not conflict with food production potential and food security
